A Pitchers Battle.

The finest game of ball that has been played in Sedalia this season undoubtedly took place yesterday afternoon between the Picked Nine that are to uphold the honor of Sedalia against the St. Louis Browns, and the Springfield team. Both pitchers were in great form as the record of base hits will show but three hits being made off Stryker and five off Morrow. Strykers speed was phenomenal, he striking out 17 of the Springfields Morrow has a very deceptive drop ball which the Sedalias, with the exception of Dewey who made three safe hits out of four times at bat, were wholly unable to solve. In Matthews the Springfields have a magnificent catcher, his throws to second being lightning like in their rapidity and as accurate as a rifle shot; with one exception, every one of the home men that attempted to steal second found the ball there waiting to receive them and it was wonderful in the extreme to witness the disgust pictured in their countenance when they found they were "nipped." The home nine played a fine game and gave Stryker good support, the error of Clarks was an excusable one, it being on a dead run of about 75 feet after a fly between center and left field which he barely managed to touch with the tips of his fingers. In fact after the way "affron" games that have recently been played it was a genuine treat to witness this one and demonstrates that the boys can play a good game if they wish to. The score will furnish all particulars.

Hay Fever and Rose Cold

Are attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts and throat, affecting the lungs. An acrid mucus is secreted, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50 cents at druggists or by mail. Ely Brothers, 56 Warren St., New York.

COMPLIMENTS THE CLUB.

What the Springfield Press Says of Our Flambeau Club.

The Springfield Leader is booming the Springfield fair in grand style, evidently imbued with the correct idea that advertising pays. The Springfield fair this year promises to be the best ever given in Southwest Missouri. The Leader of August 5th, after enumerating all the leading features of the fair, says:

"But the grandest feature will be the appearance, Thursday night, Sept. 5th, in front of the grand stand of the celebrated Sedalia flambeau club, which has a national reputation and carried off the blue ribbon at the inauguration of President Harrison. The rapid movements and perfect drill of this justly celebrated company, composed of sixty of the finest young business men of Sedalia, under the glare of \$2,000 worth of fireworks, will be the grandest attraction ever witnessed in Southwest Missouri. While performing the most difficult portion of their drill they fire twelve pound rockets which ascend two thousand feet in the air and explode with the terrific noise of a cannon."

A Horse Sold.

Mr. W. J. Wyman, Jr., a prominent farmer and live stock man of Bell Air, Cooper county, is in the city. Yesterday he sold Nellie a fine five-year old saddle and harness mare, which he brought to Sedalia with him, to Dr. W. H. Evans for \$250.00. She is a beauty as pretty as a bird of Mr. Wyman's own raising and is a traveler with a record. She is Danmark and Tuckahoe stock, leading strans in Cooper county. The mare is a valuable purchase to Doctor Evans. Mr. Wyman is a first class stockman, as well as an accomplished gentleman and one of the boys. He handles none but the best of stock, and is as fine a judge of horse flesh as there is in Missouri. Being a single gentleman he also has a rare eye for womanly loveliness.

Rheumatism Can be Cured.

It has baffled the skill of our best physicians and there are to-day more men, women and children suffering from this terrible disease than ever before, and the opinion seems universal that it is incurable, but this is a mistaken idea for it can be cured by using as directed Hibbard's Rheumatic Syrup and Strengthening Plasters. Prepared by Rheumatic Syrup Co., Jackson, Mich.; price \$1.00 per bottle, or six bottles for \$5.00; or, we will send it to any address on receipt of price. W. E. Druggist.

ANOTHER STREET RAILWAY.

Steps Taken to Build a System of Street Railroads

Which will Meet the Demands of the Growing Queen City.

A syndicate of Illinois capitalists, headed by Mr. W. R. Starkevaut, are on the look out for towns that have an undoubted prosperous future and build in them systems of street railways which they enlarge as the growth of the town requires. As a rule their investments proves exceedingly profitable. Some weeks ago they had their agent to come here and carefully examine the town and ascertain the feasibility of building a street railway system covering the principal streets with charter rights to extend as the town grew. He decided in favor of the project but found that by the term of the charter granted to the Sedalia street railway company that company had a preference over all other companies and of any other company or person desires to build a line on any street they must give that company six months notice and if that company does not build a line within that time, then the new company, or person, has the right to undertake the project. Yesterday Mr. Starkevaut employed Judge Shirk to prepare proper notices to the Sedalia Company, as required by their charter, to build lines on the following streets:

Ohio, Osage, Kentucky, Lamine, Grand Avenue, Ingram, Engineer, Fourth, Fifth, Eighth, Ninth, Thirtieth, and Sixteenth.

The notices were prepared and duly served by Judge Shirk yesterday. Mr. Starkevaut and his party can do nothing now but wait until the expiration of the six months, when they will have their engineer to plan out a system which will meet the wants of the city. They will not build on all of the streets named, but will take so much of them as will give them a line that will reach every point in the city.

"To Be, or Not to Be"

Soliloquized the melancholy Dane. A sea of troubles opposed. He shrank before them; ambition lay dead. Life, as he viewed it, rested under a yellow cloud, tinged with green. Hamlet, to my mind, was bilious. The blood, diseased, carried through the natural gates and alleys of the body, made life a burden; and the ill of the body magnified in a ten-fold degree his other ills. Purify the blood, give new life and action to the system, take Dr. Pierce's Golden Medical Discovery, and your drowsiness, lack of appetite, chilly sensations, yellow skin, bad breath, will all depart, as the morning mists are dispelled by the rising sun.

STUNG TO DEATH.

Thirty-Eight Swarms of Bees Attack a Man and Two Horses.

James Doyle, a wagon and buggy salesman from Gunell, Iowa, had an adventure with bees near Windsor a few days ago that cost him dearly. He called at the farm of John Hunter and hitched his horses near the bees numbering thirty-eight stands, while he went into the house. Soon afterwards two farm hands noticing the horses plunging in the most frantic manner hastened to see what was the matter. They found the animals covered with bees and the air all around filled with the insects and it was with the greatest difficulty that they could get near enough to release the horses. The horses maddened with pain dashed down the road at a furious rate, tearing the buggy to pieces and were found afterwards rolling in the creek in great pain and one of them died in the course of a few hours, and the other is probably permanently injured. The bees attacked the two farm hands, Doyle and Hunter came to their rescue but were compelled to retreat. All four men were dreadfully stung.

The seeds of sickness and of death. In a disordered mouth are sown; When bad the teeth or foul the breath, Both soul and body lose their tone, Till SOZODONT'S brought into play, And sweeps those dire defects away.

Resigned.

Deputy constable Shaffer resigned his office yesterday afternoon and constable Ramsey appointed Bert Smith in his stead.

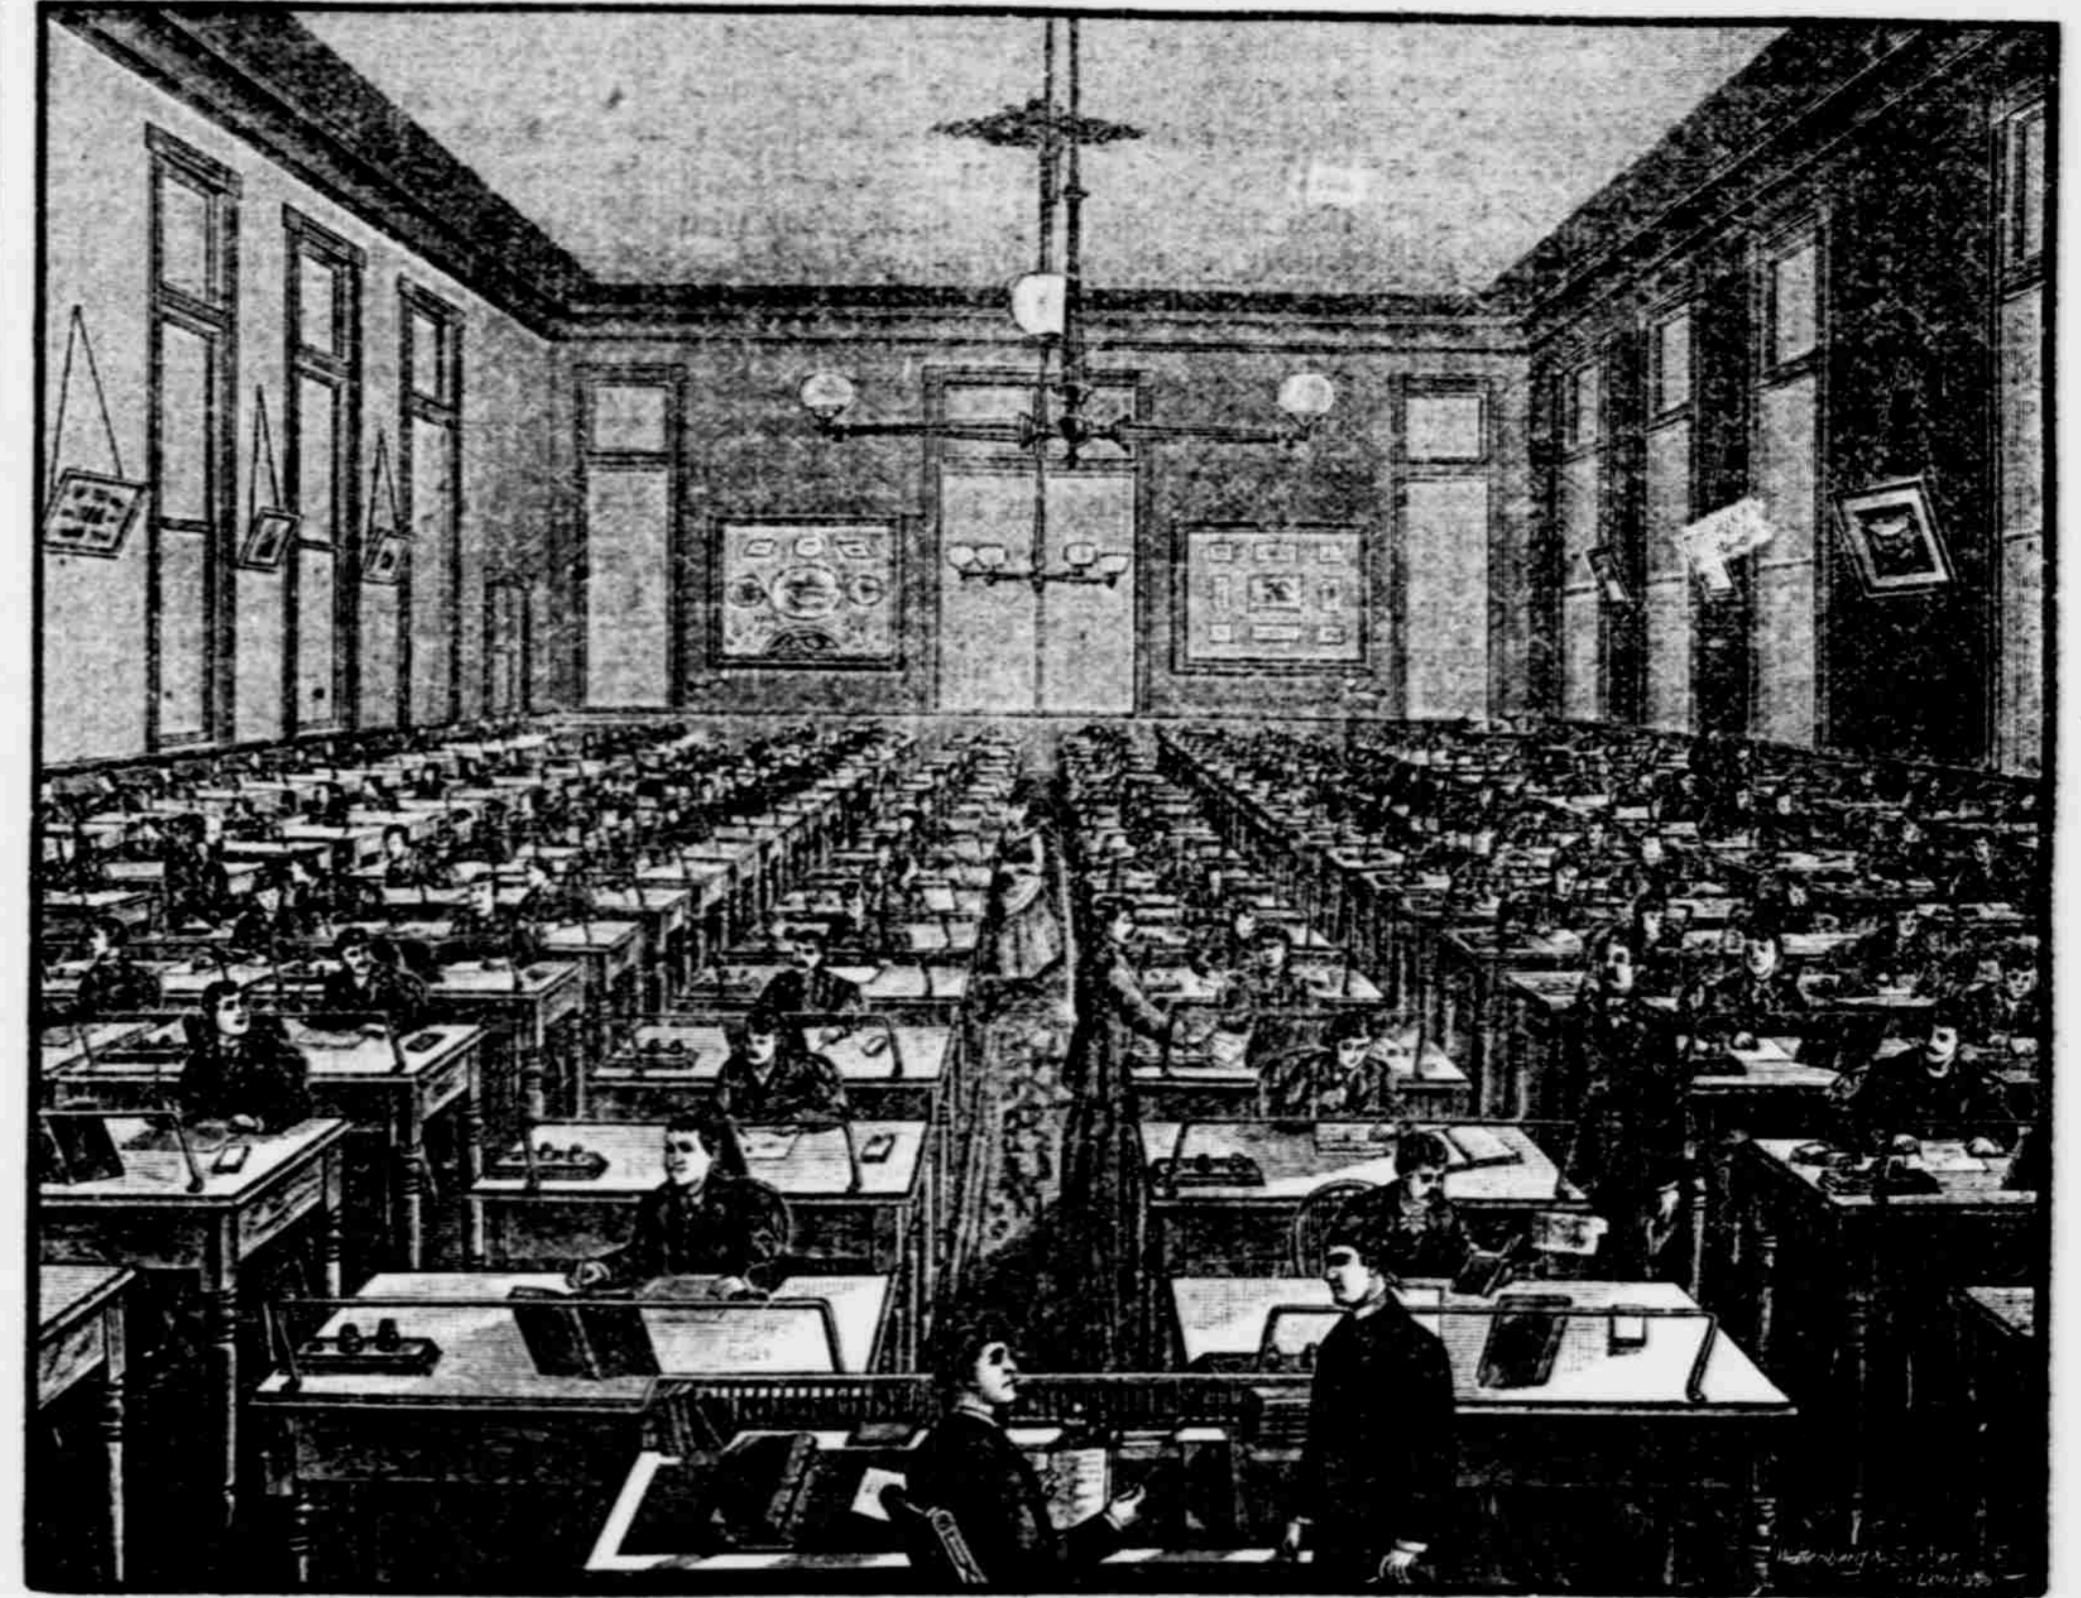

—The effect of using Hibbard's Rheumatic Syrup is unlike all medicines containing opiates or poisons, it being entirely free from them. It cures rheumatism by purifying the blood. W. E. Bard, druggist.

—The new Methodist church, south two miles west of Iowa, will be dedicated on Aug. 18. Dr. McAnally, of St. Louis, of the Christian Advocate, will conduct the services, and Elder Carpenter will assist. Quarterly meeting commences on the Saturday before.

A REMARKABLE SERMON.

A Lucid Illustration of a Familiar Text.

The congregation of the Baptist church near Smithton were some time ago edified with a sermon by a brother who is of the hard shell variety. The brother moved here from Kentucky many years ago, and is one of the solid farmers of the county, but he was not suspected of being a preacher until word was received from his old home that he used to preach. He was invited to fill the pulpit on Sunday when the regular preacher was absent. He announced that he would strike straight from the shoulder and show up the sinful practices of the rising generation in, as well as out of the church. A crowded house greeted him. His text was the old familiar passage, "Woe unto you, ye scribes, pharisees, hypocrites, etc."

"This language," said he, "was addressed to the Jews by our Saviour, who had become tired and out of humor with the Jews on account of their perverse ways. They were wicked and he wanted them to stop and hereafter obey the commands of the Lord. When he commanded them to do a thing, they went and did just the opposite thing, never once thinking they ought to obey. The Saviour was tired of this and he wanted them to stop, hence he addressed them with the startling words of the text."

"To explain the text more clearly and impress it upon your mind more forcibly—for the command is still ringing out to the children of men to this day—I will illustrate. You all know what a mule is, how mean and stubborn it is. It will mind just when it suits it. Well we will say that you own a pair of nice, smooth cropped tailed mules, and you hitch them to your carriage. Your wife gets in to ride by your side. They go for a time and you say to your wife,

"What a nice bargain I made when I got them mules."

All at once one mule sticks its tail straight out then the other does the same and away they go at break neck speed. You want them to stop don't you? You just pull on the lines and shout whoa, don't you?

Well that is just what our Lord did. He wanted the Jews to stop, hence he shouts woe (whoa) unto them."

By this time some of the younger brethren were nearly convulsed with laughter and a smile was plainly visible on the faces of the elders. The preacher stopped and gave them a sharp reproof, after which he stirred up the sinners with some more ideas much like the above.

The sermon was the greatest ever preached in that church, but this preacher was never again invited to fill the pulpit. He contents himself with a comfortable seat in the "amen" corner and is happy. To this day he thinks his sermon was a scorcher and the reason he never has been invited to preach again is because the people can't bear to be told of their sins.

102 Years Old.

Chas Crawford, who lives at Fairfield, Benton county, Mo., is among the oldest men of the United States. He was born February 22, 1788, and is consequently nearly 102 years old. He distinctly remembers Washington, Jefferson, Carroll and others of the forefathers. He was born in Baltimore Md. He has been married three times all of his wives being dead. He moved to Ohio 74 years ago and to Arkansas in 1860, and from there to Missouri 26 years ago. He is hale and hearty, and is, perhaps, the best preserved man, both mentally and physically, of his age in the State. He drinks plenty of good whisky and always has; he says he was a Soldier in the war of 1812; he has voted for every Democratic candidate for President since he reached his majority.

The Circus.

The combined Sells Brothers and Barrett circus and menagerie opened on Friday at Central Park to a big house, or rather a tent, and the audience have been on the increase ever since. Last evening every seat was filled, and there must have been fully 7000 people present to enjoy the excellent performance. The show is even better than when it was here before, and one gets full value for the money charged for entrance. There were two rings and an elevated stage, in and upon which varied and entertaining acts were performed without interruption the programme including twenty-two distinct acts and twelve races. Among the principal features were balancing, tight-rope dancing, tumbling, vaulting all kinds of trapeze and horizontal-bar work, juggling, hippodrome racing, trained mules and elephants, the splendid bareback riding of Sells, and many other clever performances, making an entertainment well calculated to please all classes.—Alta California, April 28th.

The Tipton Fair.

Major Wm. Gentry and son, the noted farmers and stockbreeders of Pettis county, have engaged fifteen stalls for fair week. Mr. John Gentry who was here last year will be remembered by all for his uniform courtesy and sociability. They have added some fine trotters to their stud since last year.—Tipton Times.

What is more attractive than a pretty face with a fresh, bright complexion? For it use Pozzoni's Powder.

Bad News for Sportsmen.

Hunting in the Indian Territory is prohibited by the secretary of war and therefore the whites will have to keep out and let the game roam unmolested. A. H. Kreider, of this city, wrote to Judge Chandler, first assistant secretary of the interior, asking if he could not get the order modified, but he replied that while he sympathized with the boys it was impossible and they would have to keep out.

—We never, or hardly ever, give free puffs to traveling shows, but Wallace & Co.'s Great Show that exhibited here last Tuesday is so far above the average that it is with pleasure we recommend it to the public. The street parade was the finest ever seen in the city; the horses were all beauties, not a scrub among them; everything was trim and clean, even the drivers were clean and good looking. The menagerie is composed of choice and rare animals. The performance of the actors was perfect; but as everybody saw the Great Show, we will not attempt to describe what you saw, for the general verdict was, Wallace & Co.'s Great Show is a grand success.—Blanchester, Ohio, Star, May 14, 1887.

AN IMPORTANT QUESTION.

The Powers of Missouri Counties to Be Legally Defined.

The following special to the St. Louis Republic yesterday morning will be read with some interest by Sedalians. The five per cent limit has always been held here to refer to the individual and not the aggregate debt of the corporations covering the same territory. This suit will give an interpretation to the law:

Lexington, Mo., Aug. 9.—Yesterday's election for the issuance of \$25,000 in bonds under the order of the Board of Education of Lexington school district, for the erection of new school buildings, resulted in a vote of 652 for and 150 against, which being a two-thirds majority, the proposition carried. On Wednesday evening last, the evening before the election, and injunction suit was filed in the circuit court by Joseph Bailey et al., to restrain the board from ordering the election, on the allegation that the board had no authority by law to order such election. The motion was overruled, but to-day another injunction suit was brought, alleging that the board has no authority to issue bonds, and further alleging that the limitation of indebtedness set forth in the state constitution at the 5 per cent. tax has been reached. The question thus brought up is, whether the statute is to be construed as meaning that the indebtedness of the county, township and school district is to be taken in the aggregate or whether it is to be taken separately. As the supreme court has never decided this important tax point, it will undoubtedly be appealed.

—Hibbard's Rheumatic Syrup and Plasters are prescribed by the leading physicians of Michigan, its home state, and are remedies of unequalled merits for rheumatism, blood disorders and liver and kidney complaints. It comes with the highest endorsements and recommendations as to its curative virtues. W. E. Bard, druggist.
